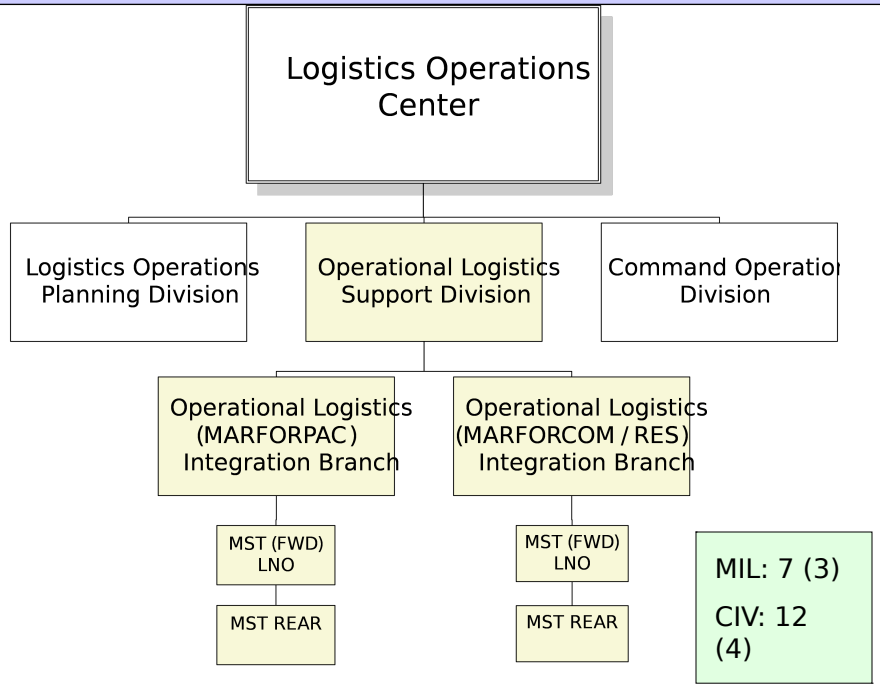
Our Operating Force-Facing Team

Organization



Mission and Guidance

MISSION: Co-Located within each MEF AOR, MEF Support Teams serve as the single MCLC integrator to provide responsive, optimal, and integrated logistical solutions for MEF logistics support requirements ensuring maximum operational readiness of the supported MEF.

STRATEGIC PLAN: CG's Guidance – *"Main Effort. Customer focus and proper alignment to:* ***(1) the Warfighter through our MEF Support Teams (MST) acting as Operational Logistics Support Integrators*** *and (2) the PM through our Program Support Teams (PST) acting as Logistics Chain Integrators."*

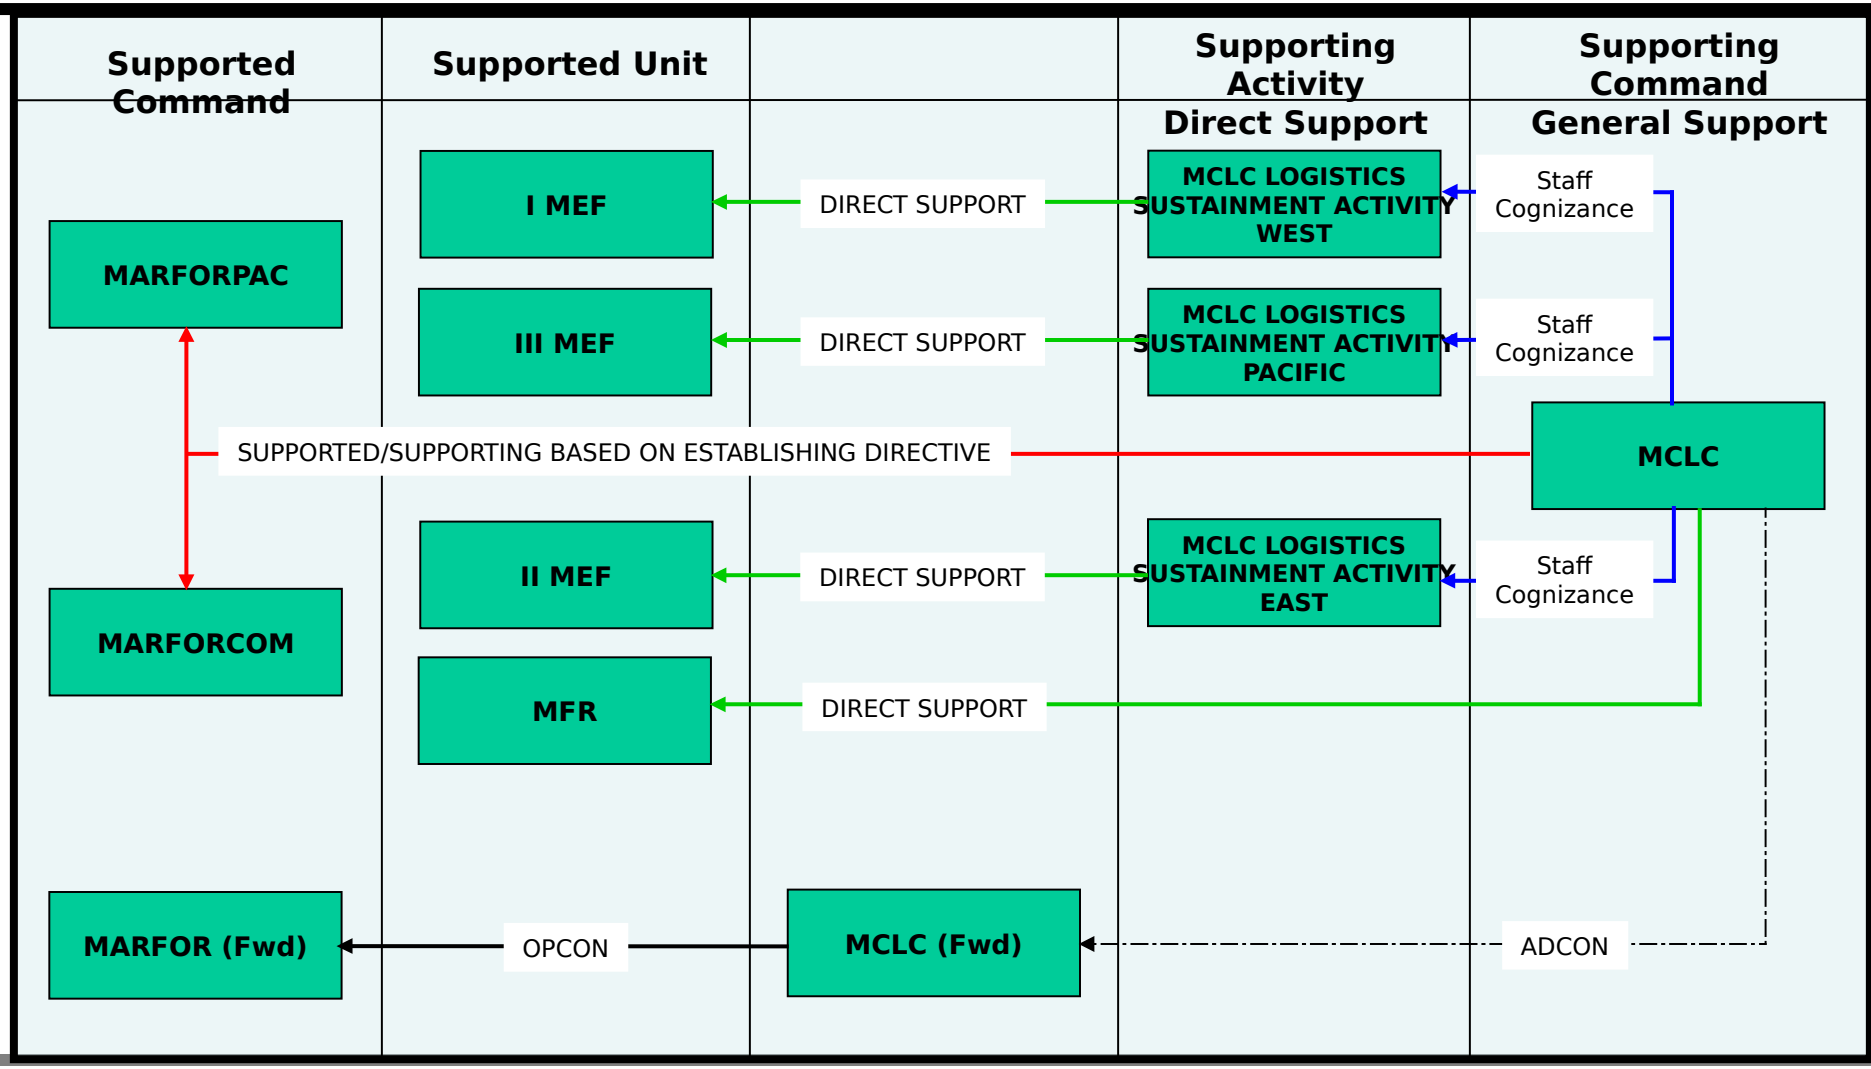
Products and Services

- **LBE Overflow Maintenance**
- **CIF / CSP**
- **ERDT**
- **RIP**
- **C3 / CRF**
- **ICE2**
- **Tire Exchange Facility**

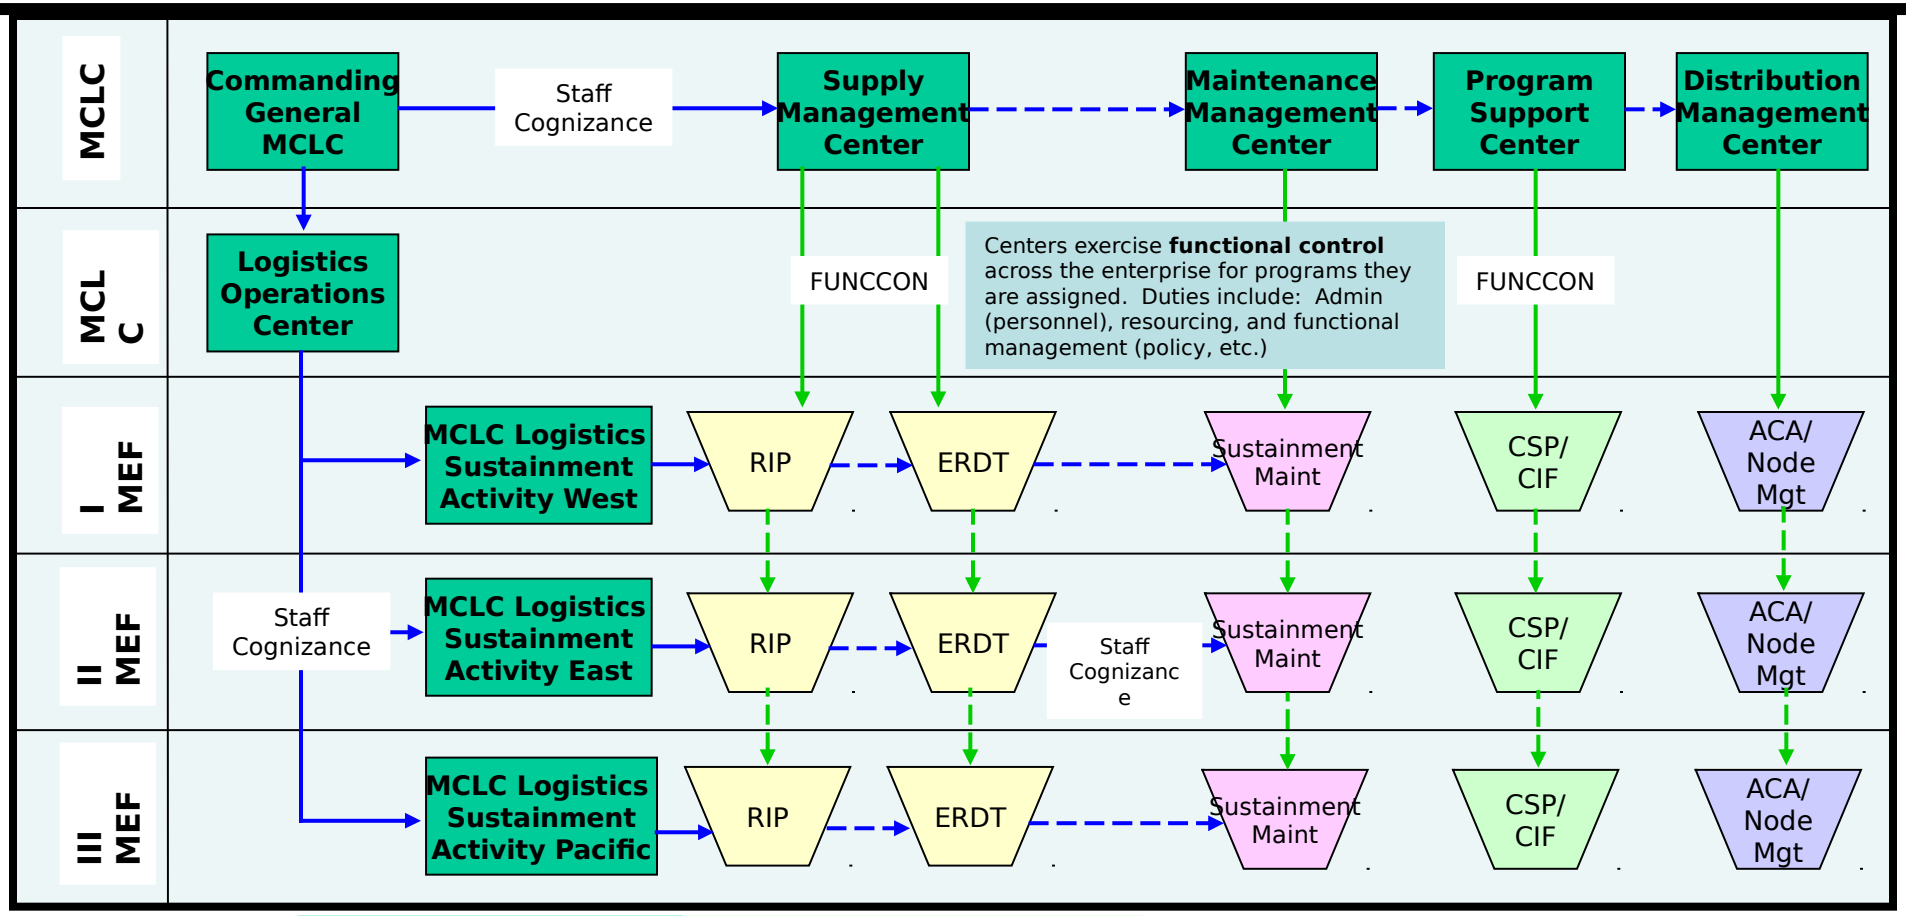
Current Projects

- **Warranty Coordination**
- **GESP Initiative**
- **Logistics Support Activity**
- **II MEF MOA**

Relationships with MARFORs: Contingency Operations



LOGCOM-Internal Relationships

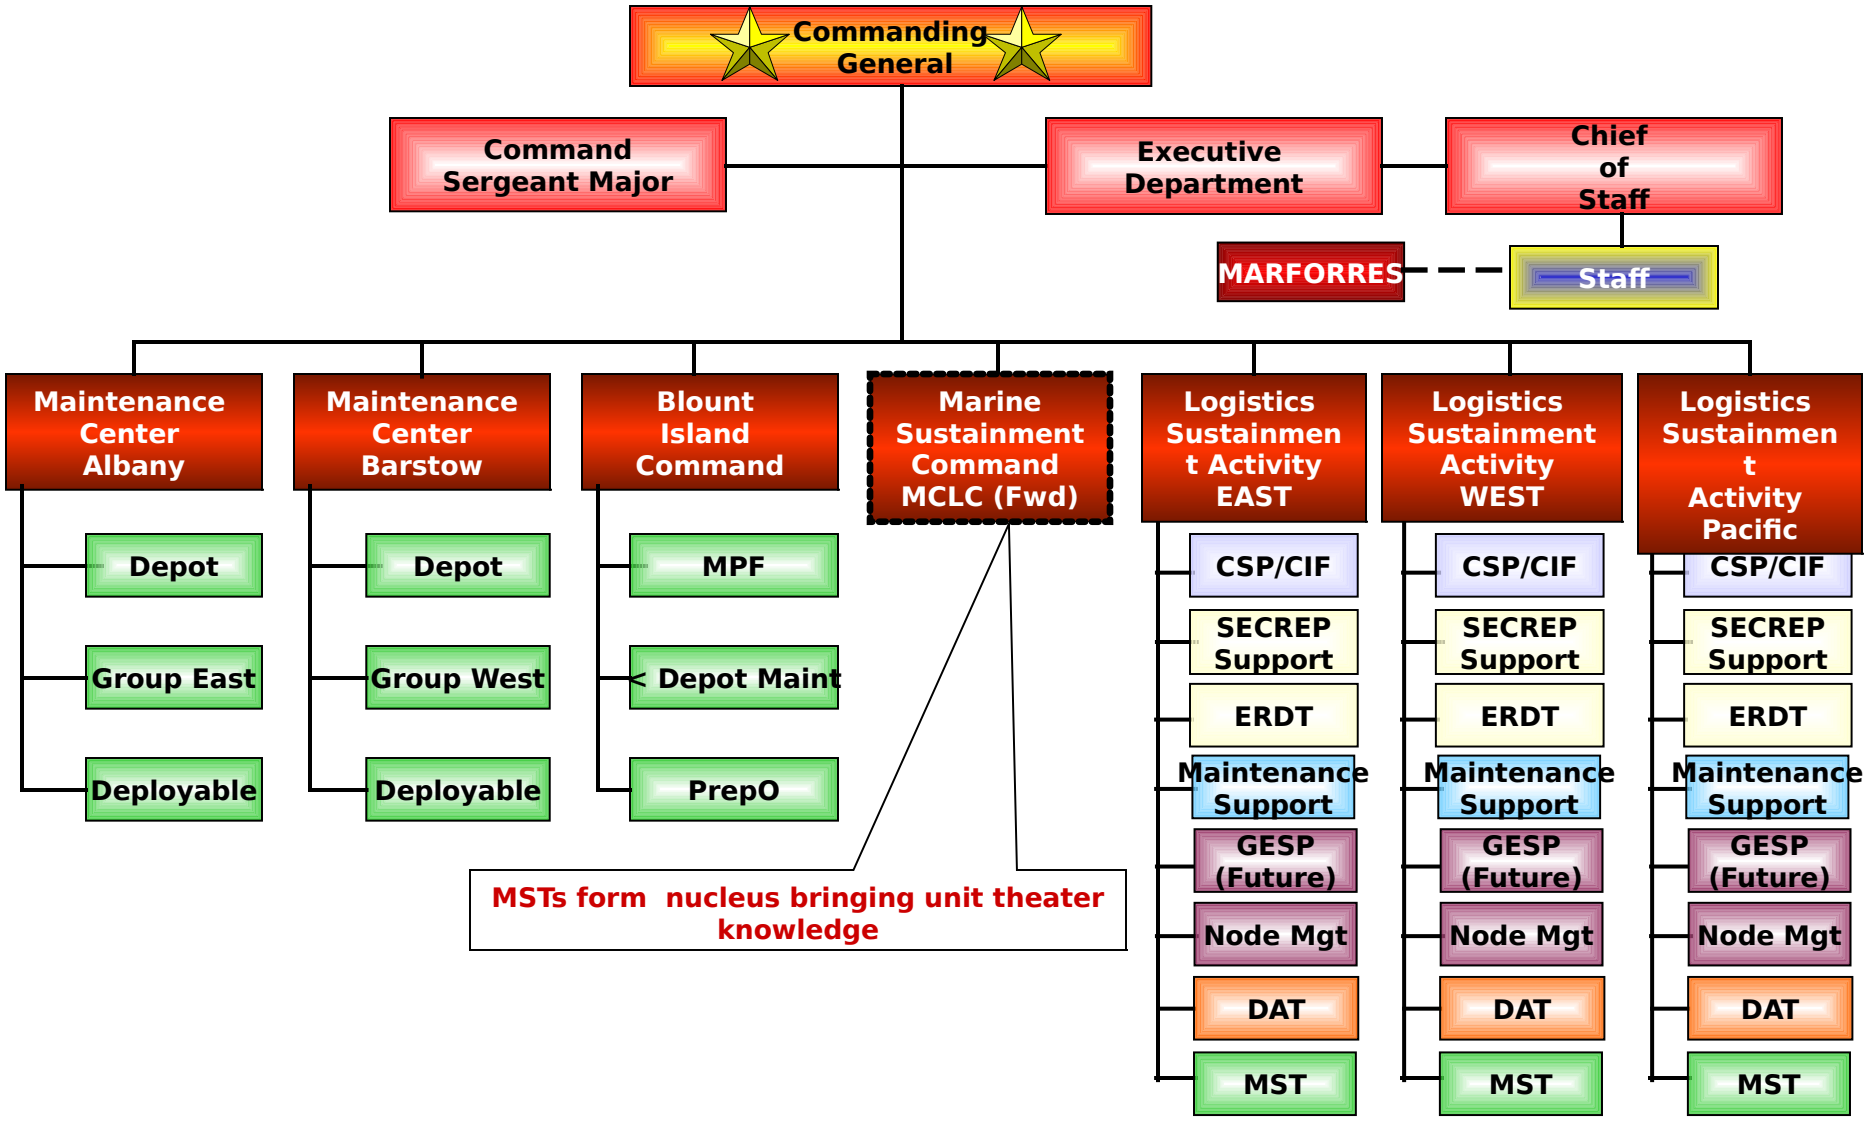


Logistics Sustainment Activities are the liaison cells embedded w/in the MEFs. They exercise day-to-day control over all MCLC support efforts w/in their region supporting that MEF.

Each of these support programs would have an activity manager (mil, civ, CTR who would be guided locally by the Sustainment Activity and functionally by the sponsoring Center).

Additional Progams Include:
CRFs, RBE/LBE, SECREP repair/rebuild, Warranty Support, and GESP. Each would either fall into one of the above "buckets" with the same relationships.

Future Construct for MCLC Regional Activities



Way Ahead

- Continue to develop Future Concept
- Equipment Visibility / Accountability
  - Inspection / Assist Teams
  - LMT East / West ?
- WestPac Deliberate Planning
- Engagement with HQMC on Operational Logistics Doctrine and MCLC Role in Operational Logistics

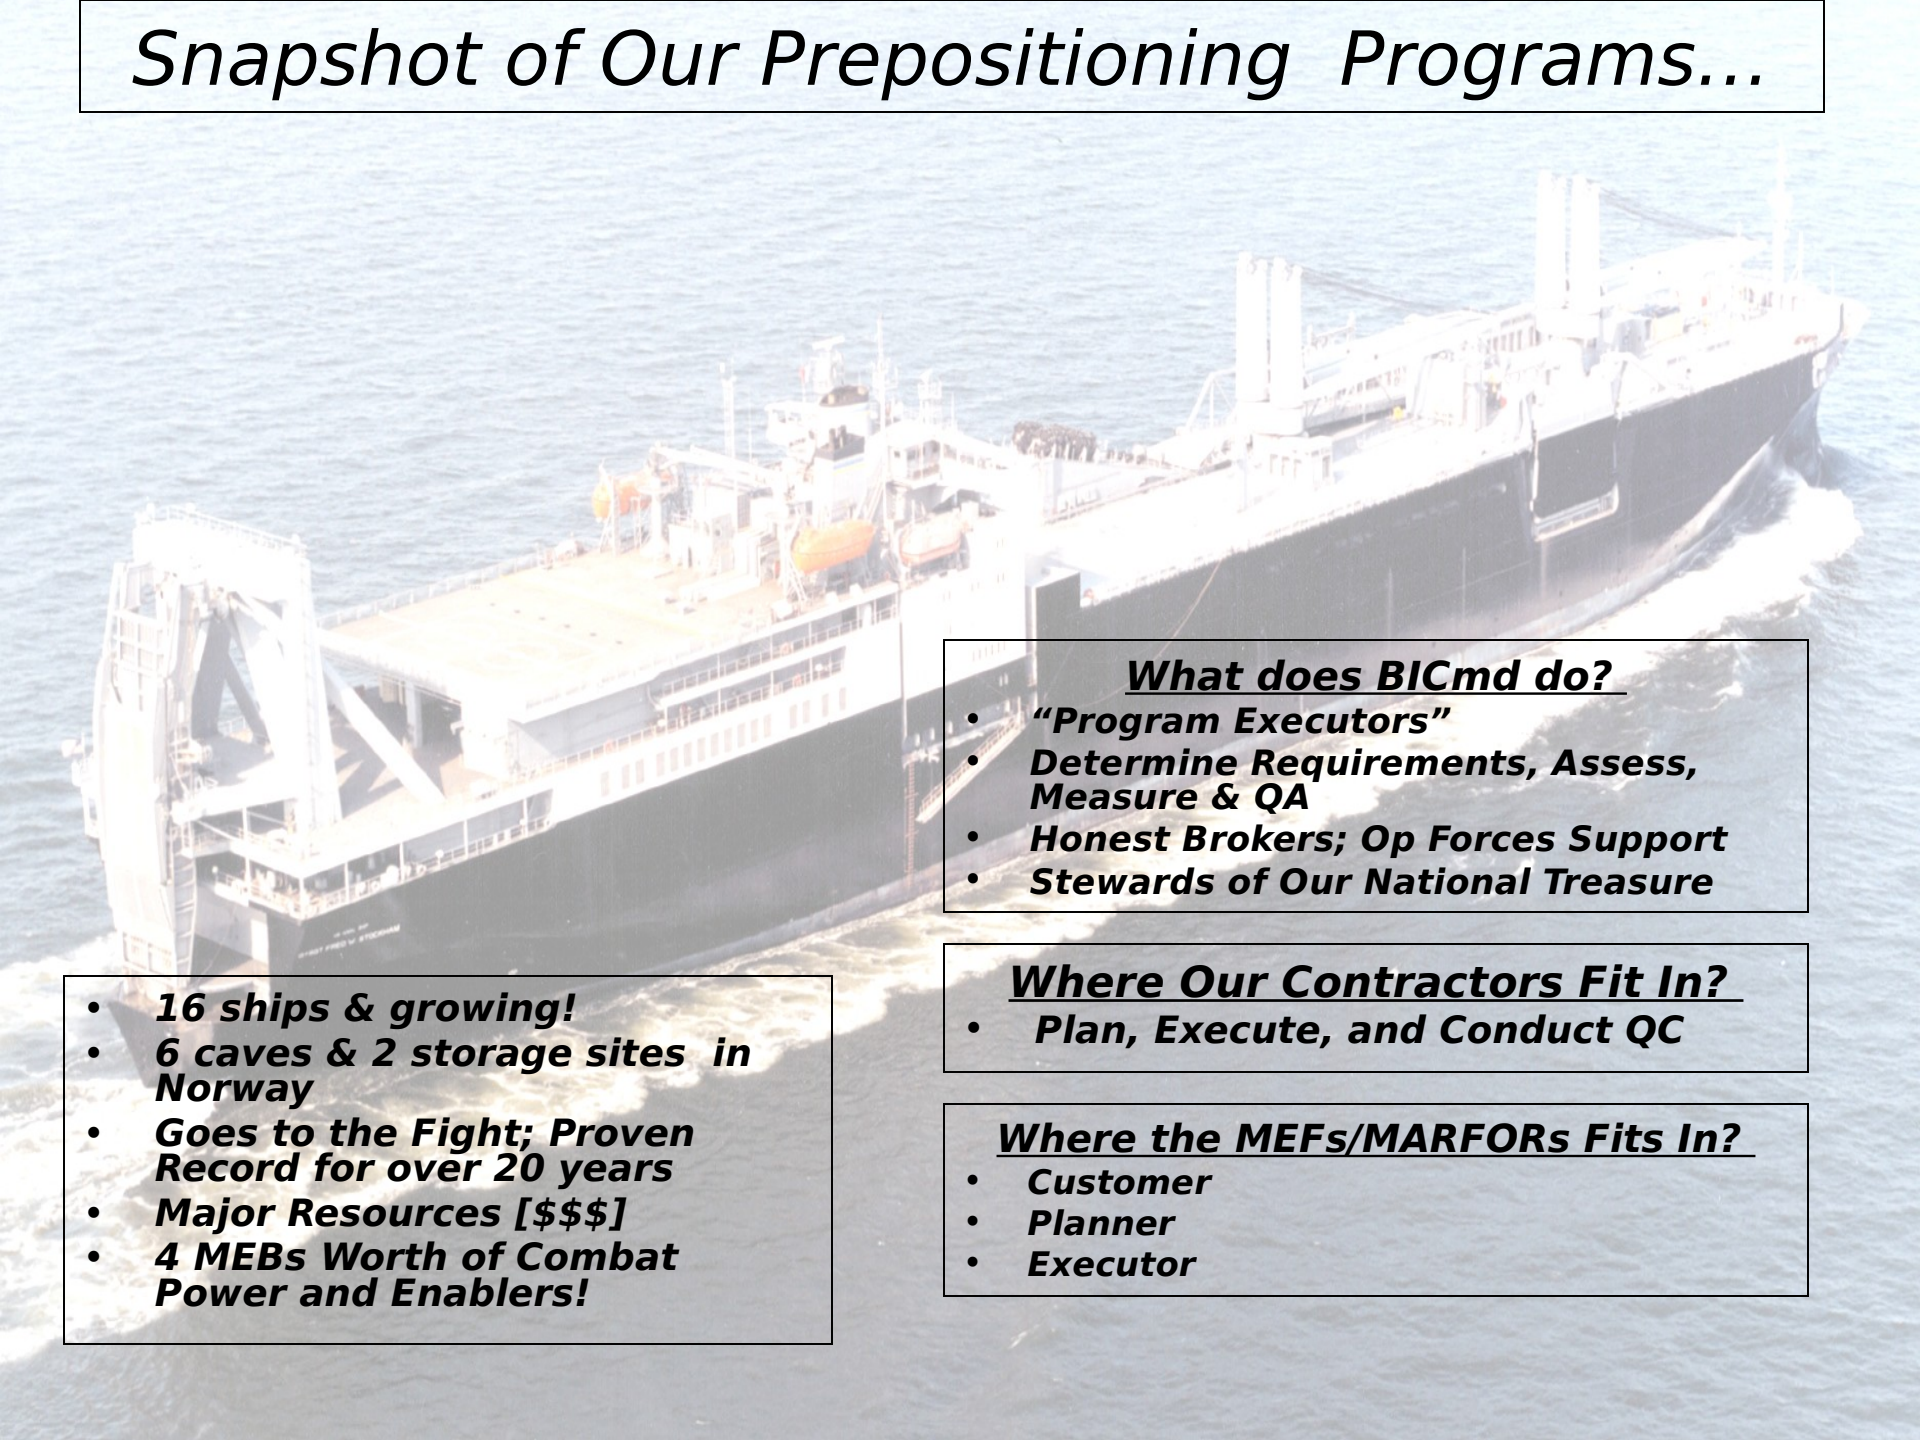
Current Strategic Reach

Snapshot of Our Prepositioning Programs…



- ***16 ships & growing!***
- ***6 caves & 2 storage sites in Norway***
- ***Goes to the Fight; Proven Record for over 20 years***
- ***Major Resources [$$$]***
- ***4 MEBs Worth of Combat Power and Enablers!***

What does BICmd do?

- ***"Program Executors"***
- ***Determine Requirements, Assess, Measure & QA***
- ***Honest Brokers; Op Forces Support***
- ***Stewards of Our National Treasure***

Where Our Contractors Fit In?

In the 2nd Post-OIF Regeneration

- *MCPP-Norway: "Bill Payer" / Readiness Improving*
- *Program's Growth*
- *Prepositioning Campaign Plan: Afloat and Geo-Prepo*

Capabilities Sets/Smart Packs

Major Program Issues

- *Termination of 5 MAESRK Class Ship Leases*
- *WATSON Class LMSRs:*
- *Container Ship: coming to MPRSON-1*
- *Tanker Ship*
- *MPS Newly Fielded Equipment*
- *Purchase 4 more MPS*
- *Transition to MPF(F): How well understood?*

MARINE CORPS LOGISTICS COMMAND(FWD)

Currently Manned Sites: 6 and growing!

26K+ Class VII Retrograde: Ready to Surge

Fluid Priorities:
2 Major Efforts
OIF vs. OEF

- *OIF **Sustainment** Mission Continues*

- *OEF Sustainment and **Surge** Requirements Rapidly Emerging*

- *In Theater **Reset**/Refresh*
  - AMC vs. USMC Capacity, Capabilities, and Alternatives

- ***In Theater Equipment Pools***
